

# GROWTH PROGRAMS RECOGNITION

## JOIN HANDS TO BUILD LIONISM

Fellow Lions:

My theme as your International President, JOIN HANDS IN SERVICE, means togetherness in sharing the challenges and opportunities of Lion leadership. I ask each of you, therefore, to JOIN HANDS IN SERVICE with me so we may lead our Association toward new horizons of accomplishment.

I urge you to make a special effort during the year, and especially during the Official Membership Growth Programs of the Association, to invite one or more new members into your club, younger men who can contribute fresh ideas and share in our work toward better serving the needs of mankind.

You have a unique opportunity to share in the growth of our Association. Your participation will also help Lions Clubs International reach its goal of 1.5 million members.

In my Presidential Program I asked each Lions Club to finish the year with at least two more members than when the year began. Your efforts in reaching this objective for your Club will help your Club President and Membership Chairman receive a Certificate of Appreciation. Additionally, your Club will automatically receive a handsome "Club Net 2 Growth Award" patch for its banner.

Sincerely,

Dr. J. M. Fowler  
President  
The International Association of Lions Clubs

*Every Lions Club finishing the year 1983-84 with at least two more members than when the year began will automatically receive this Club Net 2 Growth Award patch for its banner. The Club President and Membership Chairman will also qualify for this special Certificate of Appreciation from International President Dr. James M. "Jim" Fowler.*
